Education

Bachelor of Engineering (B.E.)

Pune Institute of Computer Technology

2023–2027

CGPA: 9.58

Experience

AI/ML Intern

Remote, Pune

SnazzySmiles Pediatric Zone

- Worked on CNN model training and backend logic for dental image quality detection and Dental view classification.
- Implemented image preprocessing and enhancement techniques using OpenCV and CLAHE.

Web Developer

Remote, Pune

Anvistar ITS Private Ltd

- Built responsive web pages using HTML, CSS, JavaScript, and Bootstrap.
- Collaborated with backend teams to integrate APIs.

Projects

AI Based Image Quality Check and View Classification

AI/ML Application

- Developed an AI-based system to detect blurred or incorrect dental images using Computer Vision and Deep Learning.
- Built a CNN model for dental view classification and enhanced valid images using CLAHE and deployed the application using FastAPI and Hugging Face Spaces for real-time cloud processing.

MyClass

AI-Powered Attendance Management System

- Developed a full-stack AI attendance management system using Python, Streamlit, Flask, Supabase, and PostgreSQL with role-based authentication for teachers and students.
- Integrated Face Recognition, Voice Recognition, and QR code-based attendance using Dlib, Scikit-learn, and speaker embeddings to automate attendance and reduce proxy attendance.

Campus Connect

College Placement Portal

- Developed a full-stack placement portal using React, Node.js, Express, PostgreSQL, and Prisma with secure JWT authentication.
- Integrated Google Gemini API to provide personalized placement readiness suggestions based on historical placement data.

Music Store Data Analysis

SQL

- Analyzed music store sales and customer data using MySQL to identify top-selling artists, genres, customers, and country-wise purchasing trends.
- Applied CTEs, JOINS, subqueries, aggregations, CASE, and window functions to solve complex business analytics problems.

Technical Skills

Programming: C++, C, Java, JavaScript, Python, HTML/CSS

Full Stack: React.js, Node.js, Express.js, MongoDB, Flask, Streamlit

Database: SQL, PostgreSQL, MongoDB, Supabase

Machine Learning: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

Computer Vision: OpenCV, Dlib, Face Recognition, Image Processing (CLAHE)

Tools & Concepts: Git, DSA, Google Colab, Ngrok, Swagger UI

Problem Solving

- Solved 600+ problems on LeetCode and CodeChef.
- 2-Star CodeChef.
- 1618* LeetCode Rating

Certifications

- Quantitative Aptitude Certificate
- C++ Language Certificate
- AI-ML Course Certificate
